Primary Examiner

1. The following is an examiner's statement of reasons for allowance: Prior art does not disclose means for determining output shaft is in good operational order, when a first detected voltage of output shaft at its first detection position and a second detected voltage of the output shaft at its second detect position to which the output shaft has been rotated by stepping motor by a predetermined number of control pulses are respectively when a predetermined error range and when a differential voltage between the first and second detected voltages corresponding to predetermined number of control pulses between the first and second detection positions is within a certain differential voltage span with respect to the rest of the claim .

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Pollock et al and Miyata et al disclose motor and position detecting.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to karen masih whose telephone number is 571-272-2068. The examiner can normally be reached on m-f 8.30-6.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, david martin can be reached on 571-272-2800 ext 41. The fax phone
